## Extran® Detergents

### Protects Your Work, Your Personnel, and the Environment

For over 30 years, Extran® detergents have enabled precise scientific working procedures in labs and production facilities around the world. Thanks to their thorough, residue-free cleaning, Extran® products ensure that everything that comes into contact with chemicals or biological substances is free of impurities – before and after use.

Despite their exceptional cleaning strength, Extran® products contain biodegradable ingredients that are free of toxins, so they are gentle on the environment and on the health of laboratory staff.

Now, Extran® is equipped with **halal certification**. Manufacturers can use Extran® as cleaning agent for their lab, while meeting the needs of halal-certified manufacturers.

### Your advantages

- **Reliable**, residue-free all-purpose cleaner
- **Free from NTA** thus safer for lab staff
- **Free from scents** and **dyestuffs**
- **Free from chlorine** or other toxic ingredients
- All active ingredients are **biodegradable**
- Validation support to prove the absence of surfactants
- **Halal certified according to JAKIM MS, MUI HAS, OIC/SMIIC, GSO**

**Extran® Detergents are  
certified by HALAL  
QUALITY CONTROL (HQC).**
